I can't thank Luca enough for his hard work and dedication. Luca is the perfect guy for someone who lacks in ideas and taste (like my self). Luca is not just a decorator, he has a great talent in advising you for the best options, colours, materials or whatever you are after (he may be shy about it but his background is art, I say no more).

I have engaged Luca to redecorate my recently purchased flat and I must say, the property has definitely changed shape and I am sure gained value. The laminate is fit to meet perfection, I can't see a single gap in between the slats, the walls colours are simply amazing and a built-in wardrobe which looked horrendous is now back to life. Luca has a great taste and I would highly recommend him to anyone that is looking for someone that can take your place to a next level. Attention to details, clean, reliable and most of all, he can meet customer's needs.

Thanks Luca!
